6-12-17

Today, the Northeast Alabama Water District has been named by media sources through a study released by the Environmental Working Group & Northeastern University as having contaminated drinking water. This report is filled with inaccurate data.

Northeast Alabama Water District is not under any health advisories of any kind related to pfoa's or pfos's or any other kind of contaminate in the water we supply to our customers. The data that has been provided is false and carries no basis of concern for our customers.

We hope this message will calm any fears or concerns that our customers may have. If you have any questions about the quality of our water, feel free to contact us at any time.

Johnny Jordan, General Manager
